

SILLY RAVINGS OF EXPOSED "EXPRESS."

THE TIMES seems to have diverted the fire of the Evening Mud-Shooter, which is now attacking and vilifying members of The Times staff and letting Dr. Lindley alone.

Very well. Let the campaign proceed on the Gates side along that line. The Times will attend to its business of electing Dr. Lindley—pausing to say that the Express burlesque vote for Mayor, if honestly counted, would have stood yesterday about as follows:

LINDLEY GATES HARPER WILSON
9019 3306 5096 2470

Caught, convicted and forced to confess, the enraged proprietor of the Express sought last evening to cover up his fraud by resorting to the time-honored tactics of the attorney who has no case—abusing the adversary. This symptom is always conclusive.

The facts in relation to the attempted imposture of the Express have been fully presented and The Times will not dwell on them again at length.

The Express last evening admitted that it had not counted 4727 Lindley votes, 3062 Harper votes and 265 Wilson votes. The Times happens to know that these figures do not begin to cover the anti-Gates votes that the Express has thrown out.

This confession of the Express sufficiently proves the original allegation of The Times that the so-called voting contest of the Express was a hoax—that in order to ostensibly show that its man Gates had a small lead, it resorted to the simple expedient of not counting the Lindley cards.

The Times based its charge on the information furnished by Republican leaders that loyal workers for the party had by preconcerted arrangement gathered up and sent to the Express (as they had a right to do) 4685 Lindley post-cards, the larger share of which the Express did not count.

It was this charge, having behind it name, date, hour of day and number in each instance, that blew the Express sky-high and completely exploded its juvenile hoax—showing that its so-called straw vote was of no import whatever.

If the Express now maintains anything it is that Harper men and Lindley men had no right to send in votes—that only Gates votes were wanted. That being the case, perhaps the Lindley and Harper voters should apologize to the Express for "butting in."

As for The Times, the charges of the baffled and raving proprietor of the Express against the paper and its editors and managers are malicious, absurd and untrue.

The Times, its editors and managers, have not voted in the Express contest and have not sent or seen the alleged spurious cards behind which the Express is trying to hide its own swindle.

The Times is free to say that if it had voted it would have voted for Lindley. It knows as a matter of fact that 5000 Lindley votes, which the Express did not count, were cast by Republican voters. Nobody has denied it. They were straight Lindley votes mailed in good faith by Republican voters. It is to be supposed that the Harper votes, which the Express has not counted, were cast by Harper voters, although the Express seems to think they were cast by The Times.

The Express, blind and stupefied in its frenzy, labors under the crazy idea that it was a State prison offense to send in any vote but a Gates vote—and it evidently went to great trouble and expense to doctor up large heaps of "queered" Lindley and Harper votes to form a barrier against public ridicule and condemnation after its tomfoolery had been shown up.

The Times will not attempt to compete with the Express in the use of either billingsgate or trickery, in which its proprietor has been a known adept for lo, these many years.

As for his assertion that The Times is supporting "the entire Republican machine ticket," it is as false as the other charges, as every reader of The Times well knows. The Times has supported and is supporting Dr. Lindley and the most of the Non-Partisan ticket.

What imbecile lying! The Express might as well have told its readers that black is white as to accuse The Times of helping out the particular and private hoax of the Express and of not supporting men whose election it is daily advocating.

GATES PEOPLE ARE CALLING FOR HELP.

In spite of former rebuffs and refusals, the Gates managers continue to beseech the Prohibition City Central Committee to "pull down" Wiley J. Phillips, Prohibition candidate for Mayor, in behalf of Gates.

The Prohibitionists decline to take any such action, and instead of doing anything to bolster up the tottering campaign of Gates, they are among his most active and bitterest opponents.

The appeal of the Gates people is a confession of their utter weakness and lack of confidence.

They attack Gates as a "wobbler," and in proof of their assertions, they make much of his record on the Police Commission in the matter of liquor licenses and other questions. The local Prohibition newspaper has devoted much space to the exploitation of the record of Mr. Gates, and has striven to accomplish the defeat of this candidate.

At a Prohibition meeting at 2:30 tomorrow afternoon at Mammoth Hall,

No. 547 South Broadway, the Prohibitionists will hold a special meeting, at which Gates and his candidacy will be scored. Incidentally, a fling will be taken at the ministers of Los Angeles for their failure, at a recent meeting to endorse Mr. Phillips, the cold water candidate for Mayor.

Gates is not the only candidate of the Non-Partisan City Central Committee who is distasteful to the "Pro." Witness the following letter:

Russ Avery, chairman Non-Partisan City Central Committee, Dear Sir: In the Evening Express of November 26, your committee invite information proving the unworthiness of any candidate on the Non-Partisan ticket, and promise, when convinced of the truthfulness of such charge, to at once withdraw your support from such candidate.

We desire to accept your invitation, and in the name of the decent, clean, non-partisan citizen of the Ninth Ward, call your attention to the fact that your candidate for Councilman in that ward is the owner of several houses of ill repute, and were used for immoral purposes. In this week's issue of the California Voice you will find photographs of these houses with their location. We ask that you issue a public statement in accord with your public promise so to do.

PROHIBITION CITY COMMITTEE.

RALLY TONIGHT AT PAVILION.

DR. LINDLEY AND OTHERS TO SPEAK IN WARD EIGHT.

Band, Red Fire and Campaign Songs Will Enliven Meeting to Be Held at the Flatio Arena at Naud Junction in Response to Request of People of That Section.

A Republican rally that has been planned for the voters of the Eighth Ward in particular and of the entire city in general will be held this evening at McCarey's pavilion at Naud Junction—the place where flatio rather than politics is the order of the day. A fine programme has been prepared and a large crowd is expected. The Dooney-Andrews and Eastlake Park cars run by the door.

The rally will be one of the closing meetings of the campaign and every citizen is invited to attend. It is attractive. There will be music by a band, there will be plenty of red fire, and the Occidental Quartette is scheduled to sing.

A. J. McGovern will preside and will make quite an extended talk. Other speakers will be Dr. Fredrick, Paul McCormick and H. H. Rose. Frank Dominguez is slated to make a brief address.

Eighth Warders have been clamoring for an opportunity to hear and see the Republican candidates and the meeting has been arranged for their benefit.

CAPTURE AUTO FROM HARPER.

UNION LABORERS PLAY PRANK ON DEMOCRATS.

Gang of Two Hundred Wilsonites Stole the Whole Works and Turn a Harper Demonstration into a Wilson Meeting in the Seventh Ward.

A mob of 200 union laborers confided in no uncertain manner last night the statements made repeatedly in The Times that the labor union politicians in Los Angeles are knifing Harper, the Democratic nominee, and working for Wilson.

A Democratic meeting was turned into a howling demonstration for Wilson. It was the clearest kind of demonstration that Harper will not get the union labor votes and that Democrats who support him will throw away their ballots.

Out of the lanes and disorganization that exists at Democratic headquarters there was evolved last evening a plan to capture the "Wilson" and to "line 'em up" for Harper.

So they put into one automobile "Spook" Howton, Democratic candidate for County Clerk of the Sixth Ward, and two or three others to give a touch of character to the thing, and then put into the same automobile "Silly Dick" Warner and some ballast to keep his flow of oratory from tipping over the machine.

At the Democratic headquarters that needed no daylight, was whisked down to Fifth and San Pedro streets, stopping almost squarely in front of the headquarters of the labor union.

Howton got up and unlimbered his voice, sailing into a laudatory talk in favor of Harper. He hardly had got warmed up to the subject when the doors of the union quarters swung outward with a bang and more than a hundred men rushed out.

From the saloons the corner and around on Fifth street came running many more, and it was but a few minutes before the two hundred men were rounded by a big crowd. They thought it was a Wilson meeting, but at the first mention of Harper's name the crowd began to hoot and to hiss.

Then some of the bolder members of the labor union clambered into the machine, and the crowd of Wilson supporters and their escort. There were loud cries of "Wilson, Wilson," and the exhortations of the glib-tongued Howton and the word "Wilson" were drowned in the racket.

From their perches in the automobiles, the unionites then launched into praises of Wilson, of public ownership and of union labor. One after another they spoke, their followers cheering them on to the subject when they proved sufficiently that the sentiment among them was all for Wilson and not for Harper they declared the meeting at an end and restored possession of the vehicles to the discomfited Harper supporters, who slunk away without the loss of a vote.

No better evidence is needed that a great vote for Wilson will be cast in what Harper has supposed were Democratic strongholds, and that a vote for him as a means of defeating Wilson will be a vote thrown away.

LIKE A TOUR OF TRIUMPH.

Dr. Lindley Hailed as Victor Where'er He Goes.

Visits Factories and Talks at Four Meetings.

Young Men Rally for Him at Evening Gathering.

Dr. Lindley's last few days of campaigning are like a triumph tour. He is greeted as the winning candidate wherever he goes. It was so yesterday at his noon visit to workshops, at his headquarters and at four meetings of address last evening.

During the noon hour he visited the Lewellyn, the Lacy, the Pilgrim, the Thompson & Boyle, and other iron works on East Main street, and in that vicinity. The workmen listened to him with the greatest attention. He assured him of their faith in him and scores of them who grasped him by the hand promised to vote for him.

In the evening he addressed an enthusiastic meeting of the Young Men's Club at Elmer Hall, members of the French colony at No. 233 Aliso street, members of the Spanish and Mexican colony at No. 423 Alpine street, and a gathering of the Ninth Ward Union Club at No. 721 Aliso street. Other Republican meetings were held at Edendale and at No. 521 West Pico street.

YOUNG MEN'S MEETING.

Applause was generous and enthusiastic as Dr. Lindley spoke at Elmer Hall, and at 10 o'clock, when Dr. Lindley arose to address the meeting, he received an ovation.

Never for a moment was the enthusiasm abated, nor was the applause of the hysterical type that broke out in a roar and a desperate struggle to keep up waning courage. Confidence was the dominant tone of the meeting, among the speakers and listeners, the confidence and confidence in the election of Dr. Lindley, and the words of the orators rang true.

S. S. McCall, president of the Young Men's Club, spoke first, and then Dr. Lindley, who spoke for about half an hour. He was the efforts on election day to get out the vote and that it is a fair fight. He stated that all the 300 members will assist in this work. Frank C. Baum was chairman of the evening.

"We believed Mr. Gates when he said Dr. Lindley would make the greatest speech of his life, and we believe it now," declared Mr. Baum. He stated his conviction, that the election of Dr. Lindley and the Republican ticket will assure the city a broad gauge and efficient administration.

Dr. Lindley made an eloquent address in which he said it was the duty of every man who has the interests of Los Angeles at heart to do all in his power to elect Dr. Lindley. He said, many Republicans were returning to the support of the Republican ticket.

"It is a splendid record, as a public man and in his private life that will elect him. Those who could speak for him are the thousands who have been relieved in mind and in the efforts of Dr. Lindley in the service of his fellow-men."

"With the Republican ticket of this year, we are not only electing Dr. Lindley, but we are electing a new party," said Meserve.

Kemper Campbell, Gavin W. Craig and D. D. Frederick, who have ever been warm toward young men, told of some of the things they expect to accomplish after his election.

LOVERS OF INDEPENDENCE.

The principal address of the evening was made by G. Ray Horton, a young lawyer who is winning distinction as an orator.

His young men of nothing, and nobody, and I love independence. Free to choose our religion, our politics, our life, in fact, everything, except our parents and whether or not a so-called non-partisan committee by the hundred shall compel us to do as they wish.

"We are greater than the greatest kings of earth and justly proud are you and we are proud of the things that mean more than anything else, comradeship in the kingdom of heaven."

"The man this club has chosen to honor tonight exemplifies the independence we young men so much admire—a man who for thirty years has wrought the ideal of us mentally, physically, and in the highest citizenship and general welfare of Los Angeles—now the independent nominee for Mayor, Dr. Lindley."

"The most independent citizen in the world today is the immortal Roosevelt. What a Roosevelt do as a voter in Los Angeles today?"

"An evening paper says he would not be elected by a machine. Dr. Lindley is backed by no machine. The machines are all working for the opposition. The most powerful machine is the machine of the people."

"NON-PARTISAN" MISNOMER.

"What are some of the things the President would undoubtedly observe in the local situation? Here they are: 'First—that the term 'non-partisan,' as applied to any movement in the present campaign, is a misnomer."

"Second—that the so-called non-partisan of Los Angeles are distinctly partisan, asking you and me to vote their ticket straight, regardless of the city's best interests."

"Third—that the easiest thing in the world to set up a straw man and proceed to knock him down, which is precisely what the non-partisans do when they deliberately try 'machine' and 'bores' to distract attention from their own bosses and to make a violent noise in the grinding of their own machine."

"Fourth—that when you find an ex-boss posing as a reformer, something is not right. He is a hypocrite unless the grace of God has reformed the boss. In this connection, has anybody heard of the Hughes reformation?"

"What, then, would Roosevelt do? 'Yes, sir, he would vote for the best man, and if the odds were even, he would vote the Republican ticket straight from Dr. Lindley to do catchers. In this campaign, with but few exceptions, the odds are not against the Republican candidates. The President would never vote any ticket merely because it had been labeled 'non-partisan' by a few self-constituted ex-party bosses. He would tell us, in the words of George William Curtis, 'a voter may be partisan and yet independent—Independent not of his party, but of the abuse of his party power.'"

The last witness of the day was Attorney Edward Allison, counsel for the Utah Fuel Company, who gave testimony to prove that the contested oil land near Evanston, Wyo., had been legally awarded to the Union Pacific after a hearing before a special agent from Washington. The hearing lasted five weeks, said the witness, and both sides were fully represented.

COAL COMPANIES ARE EXPOSED BY VICTIMS.

[BY THE ASSOCIATED PRESS—P.M.]

SALT LAKE, Nov. 30.—[Exclusive Dispatch.] Evidence was brought out at the closing session of the Interstate Commerce Commission here yesterday showing that the Rio Grande Western Railroad and its subsidiary coal companies had used armed thugs to drive holders of coal lands from property coveted by the corporation.

A. Sweet testified that he established his claim to a valuable tract of coal land near Sunnyside, but was driven from his property by armed thugs in the employ of the Utah Fuel Company and the Pleasant Valley Coal Company. He obtained injunctions against the outlaws, but the latter-grabbing companies laughed at the court and defied the law. He lost his job as agent for the Rio Grande at Colton, after the Utah Fuel Company had succeeded in preventing the American Casualty Company from giving him security.

The Fuel Company camped on his trail until after he had spent \$1000 on the coal lands.

Another sensational feature of Sweet's testimony was that the Utah Fuel Company employed telegraph wires to watch the Western Union wires in their office at Sunnyside, catching all messages of interest to the company and to transcribe copies of messages for the company officials.

CONTINUES INVESTIGATION.

BY THE ASSOCIATED PRESS—P.M.] SALT LAKE, Nov. 30.—Interstate Commerce Commissioner E. F. Clarke continuing his investigation of the coal trade in the inter-mountain country and the relation of railroad companies to the coal business and their methods of acquiring coal properties, devoted the morning of yesterday to the Denver and Rio Grande system, and its affiliated coal companies.

Chief Clerk at Sunnyside for the Utah Fuel Company and the Wasatch store, testified that previous to August 1, 1906, both companies employed what amounted to a secret tariff of all material shipped to the mines over the Denver and Rio Grande system. The companies also received concessions over other railroad lines, he said.

W. O. Williams, auditor of the Utah Fuel Company, the Pleasant Valley Coal Company, and the Wasatch store at Sunnyside, also told of the special rates enjoyed by the coal companies. The railroad company, he testified, acted as agent for the coal companies and at certain points, collecting the bills for coal delivered.

George D. Holliday of Salt Lake, told of his efforts to acquire title to a tract of coal land in the Whore Canyon near Sunnyside. He organized the Holiday Coal Company and undertook to mine the coal. During his absence he was driven from the land and his property, to which a man named Robert Kirken set up a claim.

Holliday testified that he attempted to contest Kirken's claim in the District Court of the Third Utah District, but every decision was against him. He said that Kirken had several conversations with Robert Clark, superintendent of the Pleasant Valley Coal Company, and other officials of the coal companies in which some times threats were made against him and his family.

Holliday said that Kirken had a long talk with him, finally, trying of the struggle, he sold out the coal company for \$25,000.

The Pleasant Valley Company tried to jump his claim. Holliday testified that he went back to the property but he was driven off by armed men and Kirken fired a shot at him. From the time Kirken jumped the claim he testified, until he sold out his rights to the Pleasant Valley Company, he was not permitted to go upon his land.

This land, Holliday located in 1907, today is one of the most valuable and coal-bearing properties owned by the Utah Fuel Company.

While Messrs. Livingston and Williams, officials of the Gould Coal Company, were under examination, Atty. J. M. Marchand for the government, endeavored to secure admission from them that the coal companies had been granted special freight rates on shipments of coal over the Oregon Short Line to the coast at Astoria.

Both denied knowledge of any such concessions made by the Harriman line.

The government agents have been unsuccessful in their efforts to subpoena Capt. W. G. Colton, reputed cashier of the Gould company.

Today's testimony related chiefly to the methods by which the Utah Fuel and Pleasant Valley Coal Company discouraged competition by the Gould company.

The afternoon session of the commission was enlivened by a story in which threats of violence and corporate espionage were detailed. Arthur Sweet testified that he had protested the location of a tract of coal land by Charles Mostyn Owen, who filed a claim to the tract, and who was upheld and Sweet filed on it as minor claim. When he went to take possession he encountered F. M. Wheeler, a Gould company official, with rifles. Disregarding their statement that there was "no coal on the land," he went on to the property. As he proceeded he heard a shot fired. The armed man followed him to his claim and told him he had to leave. They asked him if he would go "at his pleasure," or force. He consented to go "at his pleasure."

Afterward, he said, he secured two injunctions from the District Court of the United States, one against the Utah Fuel Company from interfering with him, but the injunctions were contemptuously disregarded. He said that he had secured no capital, no notes and no cars, Sweet said he finally disposed of his claims to J. H. Hudson for \$4000, and they soon afterward passed into the hands of the coal company.

But this did not end Sweet's troubles. He said that he secured employment on the Rio Grande Western Railroad, but was discharged through the influence of the coal company officials, who cancelled his employment on a New York certificate, issued on a New York bond.

He said that while he was working as agent and operator in the office of the Pleasant Valley Coal Company, he was given the commercial rates of the Western Union Telegraph Company for telegraphing the interests of the coal company. This practice was called to the attention of the president of the Western Union and the wires were removed from the office.

State Senator George B. Whitmore told of the armed occupation of George D. Holliday's property by Robert Kirken and other armed men. Senator Whitmore said he had coal land of his own, but he could not secure the railroad company demanded a ton for hauling it to market.

They said, Mr. Whitmore testified, "that they could sell me the coal cheaper in Salt Lake."

The last witness of the day was Attorney Edward Allison, counsel for the Utah Fuel Company, who gave testimony to prove that the contested oil land near Evanston, Wyo., had been legally awarded to the Union Pacific after a hearing before a special agent from Washington. The hearing lasted five weeks, said the witness, and both sides were fully represented.

At the request of the attorneys, two

newspaper interviews were read into the record and the hearing was adjourned until tomorrow.

OMAHA (Neb.) Nov. 30.—An effort was made today by the defense in the Richards-Comstock land fraud trial in the United States District Court to discredit one of the government witnesses, Irving D. Hull, who announced himself as a professional land locator.

It was claimed by the defense that Hull's testimony was given in consideration of his immunity from prosecution on charges in connection with the land fraud case. Hull admitted having been arrested and bound over to the grand jury by a United States Commissioner, but said no indictment was found against him, and that he was not promised immunity.

Hull's testimony developed an agreement between himself and Thomas M. Huntington to first prove they were to lease the land to Comstock, and Huntington was to get \$100 for each lease, and out of this \$100 the expenses and improvements were to be paid.

When final proof was completed, the consideration for each section was to be \$500. Three hundred dollars of this was to go to the soldier and the other \$200, which included the lease money, was to be divided between Huntington and James Hull, a brother of the witness.

POISON MYSTERY.

WITNESS LIVES ATTEMPTED. (BY THE ASSOCIATED PRESS—A.M.) DENVER (Colo.) Nov. 30.—The News today says: Edward E. Clark, Interstate Commerce Commissioner, is on his way to Denver, where next Monday, he will begin an investigation into the charges made against the Union Pacific Coal Company that this corporation has stolen thousands of acres of coal lands to which it holds no right.

A. J. Smith of the Smith-Bradley Mining Company, who stands sponsor for some of the charges against the corporation, intimates that he will charge the attempted murder of a government agent by poison during the hearing.

Smith says that it would appear that an attempt was made to remove Michael A. Myerhoff, the land office detective who is investigating the case, on Wednesday, and that mentioned two Wyoming Senators unfavorably during his testimony.

According to Smith, Myerhoff, after completing his investigation in Denver, stopped in a Seventeenth-street saloon on his way to the Union Pacific Station. Smith says something was put into his liquor that the detective became unconscious and that it was necessary to take him to the hospital.

WARREN DENIES IT.

ANSWERS MYERHOFF. (BY THE ASSOCIATED PRESS—P.M.) WASHINGTON, Nov. 30.—Senator Warren of Wyoming, who arrived in the city today, made a statement in contradiction of the affidavit of Special Agent Myerhoff of the General Land Office, made Wednesday at Salt Lake City, in which Warren and his colleague, Senator Clark, were charged with conspiring with the Union Pacific to stop investigations into charges made in connection with the entry of coal lands owned by the Union Pacific Railway Company. Senator Warren said, in part:

"If Myerhoff made such an affidavit he must have been indulging in pipe dreams. I am informed that Senator Clark never saw the man and never had any connection with him, oral or written."

"As to the subject matter of the testimony referred to, I have no connection with coal or other land entries of the Union Pacific or any other railroad or any other company and no interest whatever in coal, further than the prohibition for the people of my country to get plenty of coal of good quality and at reasonable prices, and that the world might know of the vast deposits of coal underlying the soil."

BAILEY TALKS IN THE OPEN.

SAYS ATTORNEY-GENERAL'S OFFICE DOES POLITICS.

Texas Senator Again Repeats That He Did Not Act as Attorney for the Waters-Pierce Oil Company—With at the Railroads and Breweries in Securing Davidson's Nomination.

(BY THE ASSOCIATED PRESS—A.M.) DALLAS (Tex.) Nov. 30.—A special from Washington to the News says: Senator Bailey made the statement relative to allegations which affect him in connection with the suit against the Waters-Pierce Oil Company. Bailey said that inasmuch as the Attorney-General of Texas had connected his name so prominently with the case, he would leave tomorrow or next day for Texas. The statement follows:

"I have believed for more than two months that the Attorney-General's office is actively aiding the political conspiracy against me in Texas. For some time reports have been coming to me of statements, made by men connected with that office which are absolutely false and which could have been made only for the purpose of creating prejudice in the minds of those who do not know the facts."

"Inasmuch as I have publicly and repeatedly declared that I did not act as an attorney for the Waters-Pierce Oil Company in the matter of its re-admission to the State, it would be important for the people to know whether it is true, but its importance would be wholly lost if it had no relation whatever to a legal proceeding to revoke the permit of that company and to punish it by fines and penalties."

"If the State could show that the Waters-Pierce Oil Company paid me even a trifling sum to help them secure its permit to transact its business in Texas, it could have no legal effect on the decision of that case than if the attorney for the defense could prove that the railroads and breweries assisted Atty.-Gen. Davidson to secure his nomination as Attorney-General."

WRECK DUE TO OPERATOR.

Search Is Being Made for Mattor of Rangoon.
Records Show He Filled the Block With Trains.

Spencer's Funeral Fixed for Sunday—Seven Dead.

(BY THE ASSOCIATED PRESS—A.M.)

LYNCHBURG (Va.) Nov. 30.—The accident yesterday morning near Law- yers' Depot on the Southern Railway, in which President Samuel Spencer and his party lost their lives, is declared by a Southern Railway official to be due to the block telegraph rules being disregarded by C. D. Mattor, who was in charge at night at the block station at Rangoon, four miles from Lawyers' Depot.

Asst. General Superintendent E. A. Chapman of the company today gave out the following statement:
"Investigation so far made of the accident developed the fact that Operator Mattor at Rangoon let train No. 33 into the block and disregarded the rules and failed to notify the operator at Lawyers' Depot of this fact. When the first section of train No. 37, the Southwestern Vestibled Limited, approached Rangoon, Operator Mattor asked the operator at Lawyers' for the block on No. 37. This was given by the operator at Lawyers' who did not know that No. 33 had gone in upon the block.

NO. 33 BROKE DOWN.
"No. 33 broke down at the south end of a curve, and as soon as the train stopped, the flagman ran back to protect his train. As far as we learn, the flagman had proceeded about 200 yards when No. 37 was in view on the curve. Engineer McKinley saw the signal, and applied the emergency brakes, but he did not have time to leave his seat before the collision took place.

An inspection of the telegraph sheet in each of the block stations substantiated this belief. The sheet at Rangoon shows that No. 33 was given the block by Operator Mattor, and the sheet at Lawyers' shows that Mattor had not notified the operator there that No. 33 was on the block and suited to it.

The company has a number of men searching the country for the hope of locating Operator Mattor, but up to a late hour this forenoon, we have been able to ascertain absolutely nothing as to his whereabouts."

The death of William Pollard, the porter in President Spencer's car, and J. W. Shaw, the negro fireman, both of whom died of their injuries here, last night, awaited the death list to seven all.

County Coroner J. W. Davis is expected to take action on the accident. He arrived at the scene of the wreck yesterday, but finding that the bodies had already been removed, he deferred until today.

PRIVATE SECRETARY ESCAPES.
The escape of A. E. Merrill of New York, private secretary to Spencer, the only survivor in the party, was a fortunate save for a porter was injured. The injuries he sustained are not serious, and he will be able to leave the city hospital here probably by the first of the week.

Identification was made today of the negro who was killed and his body buried. The victim was Benjamin Howell of Toledo, O., a dining-car man, who was taken aboard Spencer's car for the trip.

BODIES SENT TO BALTIMORE.
(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Nov. 30.—The bodies of Charles D. Fisher and Frank T. Redwood, both of Baltimore, who were killed in the collision, were sent to Baltimore early today.

Arrangements for the funeral of President Spencer were made after a conference today with the family by Second Vice-President Finley. Funeral services will be held at St. John's Church in this city Sunday. The interment will be in this city and will be private. Many telegrams of sorrow have been received at the Spencer home from prominent railway men throughout the country.

THE DEAD OPERATOR.
D. W. Davis, the telegraph operator who was killed, was detailed to accompany the higher officials of the road on such trips as the one that ended so disastrously yesterday. It is said that when he was notified that he would be expected to accompany President Spencer and party on this occasion, he asked to be relieved, stating that it was the desire of his wife and himself to spend Thanksgiving with his parents in Alexandria, but it could not be arranged.

MATTOR A VIRGINIAN.
Superintendent of Transportation Taylor today said that all efforts of the company so far to locate Operator Mattor, who was operating the block station at the entrance of the block in which the accident occurred, had failed. Mattor is a native of Sandy Level, Va., and had been in the employ of the company for three years.

GRAIN FAMINE PROVES FATAL.

RUSSIAN PROVINCES SUFFER FROM LONG DELAY.

Lack of Food and Medicine in District of Saratov Causes Serious Spread of Scoury—Roads Tied Up, and Lack of Coal May Cause Factories to Suspend.

(BY THE ASSOCIATED PRESS—P.M.)
ST. PETERSBURG, Nov. 30.—As a result of the investigation which the press campaign and public indignation have compelled the ministry to make into the Ljval contract for the purchase of grain intended for famine relief, in which Assistant Minister of the Interior Gurko is alleged to be involved, the sufferings of the stricken population of the Volga provinces have been greatly augmented.

On account of the disappearance of Ljval, the chief grain buyer, in the face of threatened proceedings, the purchase and shipment of the sorry-needed grain have been suspended and considerable time must elapse before the new contracts be drawn up.

Princess Gerasimovna and Orbeliani, representing the Zemstvo Bureau of Famine Relief, who have just returned to Moscow from a trip through the famine-stricken provinces, report that the situation is even worse than described in the earlier accounts. Scarcity followed by the lack of food and medicine, is spreading widely.

While there is a large accumulation of coal in the Donets mines, the railroads are not moving it and in consequence the mines have shut down. It is feared that the lack of coal may lead to a suspension of work in the factories and great distress is looked for in several of the manufacturing districts.

Comptroller Schwanbach, who is head of the Inter-Ministerial Committee appointed to inquire into the grain scandal, went to Tsarokoselo tonight to lay the matter before the Emperor and obtain instructions.

The removal of M. Gurko, if found necessary, will hamper the execution of the Agrarian legislation already promulgated and charged with the preparation of projects to be submitted to Parliament.

WORKING FOR VOTES.
LABOR LAW SIGNED.
(BY THE ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, Nov. 30.—An important part in the administration's programme for industrial reform, designed to appeal for the votes of the great mass of clerks and commercial employees at the coming elections, was promulgated today in a law providing for the "normal repose of commercial

establishments," which was signed by the Emperor last night. In addition to a ten-hour day for employees in stores, offices, and a fifteen-hour day for those who work in restaurants, saloons and similar establishments, which are allowed to be open, the law embodies the statute regarding Sunday closing, providing for closing stores and the cessation of work in factories, except in the case of industries where continuous activity is necessary.

RELIGIOUS BRIEFS.

MANY MISSIONS ADDRESSED.
An all-day missionary meeting will
be held at Paniel Hall today. Dr.
George D. Watson will speak at 11
o'clock on "The Missionary Outlook in
China and Korea," and there will be
other speakers in the afternoon and
evening.

Rev. D. H. Lee will address the
Boys' Heights Methodist Sunday-
school tomorrow morning on the sub-
ject of missionary work in India. Mr.
Lee spent many years among the Hin-
dus, having just returned, and is
speaking the winter in this city.

Rev. F. B. Forbes and F. Tager will
speak on "A Square Deal With the
African" at the Pico Heights Congre-
gational Church on Sunday evening.

Rev. H. G. Smedland, the new pastor
of the Norwegian-Danish Methodist
Episcopal Church, Tenth street and
Denver avenue, will preach Sunday
morning and evening.

Rev. L. S. Cornell, pastor of the
First United Brethren Church, will
address the men's meeting at the Y.
M.C.A. tomorrow afternoon at 8 p.
His subject will be "What Am I Do-
ing?"

Dr. E. E. Wishard, for eighteen
years a worker for the Presbyterian
Church in Utah, will address the
Young Women's Christian Association
at 4 o'clock tomorrow afternoon on
"The Menace of Mormonism." He is
considered the best authority and
strongest speaker on the subject on
the Pacific Coast.

The first of a series of monthly
praise services will be inaugurated at
St. Paul's Pro-Cathedral on Sunday
evening at 7:30 o'clock. A full musical
service will be sung by the choir un-
der the direction of Ernest Douglas.
This is the only vested choir in the
city composed exclusively of men and
boys, and the music rendered by it is
of a high order of excellence. From a
musical standpoint alone any one at-
tending this service will be amply re-
warded. Special features will be a solo,
"I Heard the Voice of Jesus," Master
Card Branger, address by the rector,
Rev. Dr. Wilkins, and a hymn, "Pre-
pare Ye the Way of the Lord."

A public reception will be tendered
to Dr. and Mrs. William Sutton Day in
the parlors of the First Congregational
Church on Monday evening at 8
o'clock. The guests of honor returned
from the Orient, and the ladies
having the reception in charge extend
a cordial invitation to the public to
greet them on Monday evening.

Francis Murphy will speak on the
subject, "Manifestation of Love," at
the gospel temperance meeting in
Blanchard Hall on Sunday evening.
D. T. Steele will preside and Mrs. Su-
perintendent will be assisted by sing-
ing societies.

There will be brief addresses by repre-
sentatives of the Harvesters will be
held at the home of Mrs. Murphy, No.
1111 Wilton place, on Monday after-
noon at 2 o'clock.

QUARRELS AND LEAVES.

Mrs. George F. Kenney After Dispute
With Her Husband, Disappears.
Letter Asks Police Assistance.

Since quarrelling with George F.
Kenney on Tuesday afternoon, Mrs.
Kenney has been missing from her
home at No. 214 South Olive street.
After searching for his wife for three
days and failing to gain any clue to
her whereabouts, Kenney said he was
last night for assistance.

According to friends of Kenney, Mrs.
Kenney secured a key to a deposit
of money. When she returned, find-
ing she and her husband quarrelled,
explaining matters to the police. Ken-
ney said that he thought his wife was
temporarily demented when she left
home.

After following her from their resi-
dence on South Olive street to the
Huntington electric depot at Sixth and
Main streets and while the woman was
walking her way through the crowd,
they believe that his wife is in some
suburban town.

All Electrical Manufacturing Companies Are Immensely Successful

The Financial Opportunity of Your Lifetime to Get Into a Money-Making Electrical Manufacturing Business on the Ground Floor

What We Are Doing Now and What We Purpose Doing in the New Plant

The business of the Electric Heating and Manufacturing Company represents the latest and most important achievement in electrical development. It is the practical application of electricity to the every-day needs of the people in cooking and heating. It is the kind of business that is doing the ordinary work of the kitchen, for there is no cook, no smoke and no dirty cooking utensils. Further, it is economical, for with all its pleasing innovations, it costs less money than any other known fuel. The Electric Heating and Manufacturing Company is incorporated with a capital stock of \$250,000, divided into 250,000 shares of a par value of \$1 each. All the stock is fully paid and non-assessable. There is no preferred stock. The company is now working at its temporary plant, 637-639 San Fernando street, Los Angeles. We manufacture under patents secured to us various heating and cooking appliances, every one of which is ordered today and every day, far beyond our

The Most Profit-
able Industry
on the Coast

capacity to furnish. In the simple matter of our electric flat iron alone, orders swamp our plant. We are turning them out now at a rate of more than a thousand a month. Electric room-heaters, griddles, bake-ovens, bread-toasters and other kitchen and heating necessities are demanded by the people in the trade in quantities that our present overworked facilities cannot begin to supply. Our new factory at Dolgeville, which is now in course of construction, will not only increase our producing capacity, but also our dividend paying capacity, as the business is one of the most profitable industries on the coast. Its output sells at a profit of fully 300 per cent., assuring big returns for every share of stock in the company. The new plant will be modern in every respect. Our business is an absolute monopoly, as no other individual in the world has the right to manufacture our patented articles.

The New Factory Is Rapidly Nearing Completion

As shown in the picture above, the new factory at Dolgeville is rapidly nearing completion. The money of the company is being wisely, ably and conservatively managed. Business principles apply and we pay to us as we go. There are no assessments on our shareholders for unforeseen conditions or unexpected contingencies. Every share is just like every other share, actually full paid and absolutely non-assessable.

An electrical marvel for the home, the restaurant, hotel, the rooming-house and every place where people eat and cook. A dainty little appliance which may be connected with any electric light circuit and placed right on the table without smoke, soot or smell, and toasting to a turn.

An Oven that Solves the Baking Problem Forever

The distribution of heat is absolutely uniform. That rare, even brown, on top and bottom, so much desired by careful, painstaking cooks, is secured without effort in this Twentieth Century Oven. Makes perfect bread and bakes biscuits in from eight to ten minutes.

The Electric Flat Iron

Ironing is a pleasure with this new invention. Whether in heavy commercial work of the laundries or in the quiet of light work in the home, this flat iron relieves ironing of all its troubles.

Every Appliance a Success

The test of any new invention is the degree of its acceptance by the people. Reflect that, work as we do, we are unable to begin to meet the demand for these appliances and you can realize the success awaiting us in our new factory, where every facility will be provided.

There is Just a Limited Amount of Stock to Be Sold Below Par for Construction Purposes

It is the intention of the company to sell sufficient stock to fully equip its plant at Dolgeville. The success of the business, even with the over-crowded condition of our present factory, has been phenomenal. The temporary structure, now in operation at 637 and 639 San Fernando street, is scheduled for the completion of the new work at Dolgeville, will be installed immediately in the present plant, which even then will be insufficient to supply the demand for our electric appliances. This is an opportunity for investors, large and small, to take shares in an industrial company in which returns are certain and big. Our profits are fully 300 per cent. Our expenses are merely nominal. Many people of means who find in this country many opportunities to speculate at a risk, but who realize that the industrial development of the country is as yet limited, should fully investigate this. It will be found that every advantage is exactly as presented here. That the company is absolutely unable to fill its orders by reason of contracted facilities. That the money realized presents no other business so sure, so safe, and so profitable for every dollar invested in its shares of stock. That the whole field of industry on the entire Pacific Coast advances to 60 cents a share Dec. 1. Applications for it should be made at once—today—now.

Office open tonight until 9 o'clock. Mail orders postmarked up to midnight will be accepted at present price.

PITIFUL BABIES NEARLY NAKED.

HUMANE OFFICER TAKES THEM
TO TRUE LOVE HOME.

Pathetic Spectacle Attracts Attention
on Streets, and Brings Up Of-
ficial Question—Four Others at
Home, Mother Sent to Patton, the
Father Reported Worthless.

Officer Dearborn of the Los Angeles Humane Society made a curious and pathetic progress through the crowded streets yesterday afternoon. He held close in his arms a poor neglected mite of humanity ten months old, blue with cold and well-nigh naked, with bare head and bare feet, and only one flimsy garment for covering. Another forlorn baby two years old—he was leading by the hand.

Two baby boys they were, and he was taking them with an order from the Associated Charities for shoes and stockings and a few warm clothes to a near-by store while every woman he looked upon with deep pity on the touching spectacle.

Finally the shopping was completed, the kind-hearted saleswomen helping to make the babies warm and comfortable, and through the streets again the officer went with his charges until the headquarters of the society in the O. T. Johnson Building was reached. Then came the question that the Humane Society has to face every day of its existence, "What shall we do with these helpless children?"

The society has no home of its own,

JAP SQUADRON COMING.

TOKIO, Nov. 30.—A training squadron, consisting of the cruisers Ise, Kikuzuki, Hashidate and the battleship, under command of Rear-Admiral Tomooka, late president of the Naval Cadet School, will start from Yokohama, January 6, next, on a cruise, via Honolulu. The squadron, it is expected, will arrive at San Francisco, February 18. It afterward will visit Seattle and Tacoma.

THE CONDOR OF

1 CALIFORNIA.

**THIS GREAT BIRD NOW IS AL-
MOST EXTINCT.**

**Story of the Capture and Growth
of the "General." Now in the New**

York Zoological Park—Nest Was Found in Almost Inaccessible Place in San Bernardino Mountains.

One of the recent acquisitions at the New York Zoological Park was the subject which attracted the attention and evident interest of the delegates attending the twenty-fourth annual congress of the American Ornithologists' Union in Washington. This was the California condor, "General," one of the five specimens of this almost extinct bird which naturalists have

ability to capture and nurture in captivity. The other two condors are the California Condor and the Andean Condor. The California Condor is found in Rock Creek Park, Washington. The rarity of the bird and the fact that the description of it was given by a young man who had spent three years in the mountains of the Sierras in Southern California in quest of the nest from which "General" came into the world, caused the audience to follow every word of the description.

The speaker was William L. Finley, of Los Angeles, who had carried his long search to a successful conclusion, and had then trained the captive. It was on March 10, 1935, that he found a nest on the cliffs of the Sierras, with a male, with a single glossy egg, and an adult condor sitting close by. For several days he watched the nest. After that time their vigil was rewarded by the discovery that a young condor had been born.

These investigations was told to the New York Evening Post's correspondent by Mr. Finley. He said:

"I was out there, just wide enough for a path, dropped step into the gorge a couple of sides. For two miles we wound around a shaky trail, tracing the top

ERRING MAID FORGES CHECK.

Pretty Iowa Girl Tries to Join Soldier Lover.

Took Friends Along on Fund but Is Arrested.

Gillette Again on Witness Stand, Testifying.

(BY DIRECT WIRE TO THE TIMES.)
DES MOINES (Iowa) Nov. 30.—[Exclusive Dispatch.] To obtain the funds which would enable her to join her lover, a soldier in the Eleventh Cavalry, now in Cuba, pretty 19-year-old Grace McCord, it is alleged, forged the name of John McCord, her adopted father, a wealthy farmer living near Bayard, to a check for \$400. She collected the money, purchased tickets for herself and two friends from Des Moines to New Orleans, and was arrested at New Orleans last night, just as she was embarking on a southern Pacific steamer for Havana.

Local detectives will leave for that city, today, to return with the young girl to the unrelenting father.

The two young women whom Miss McCord aided are Mrs. Able Rice and Mrs. Hanna Smith, both of whom married soldiers in the Eleventh Cavalry and were anxious to join their husbands.

Grace was adopted by the family when 10 years old. At 16 she ran away from home and came to Des Moines, where she became infatuated with Kuhn. When Kuhn left for Cuba, she returned to the McCords, asking forgiveness, and was given home again. There she planned and executed the forgery, which John McCord now declares, will send her to the penitentiary.

CRIME BRIEFS.

Seven Masked Men.
NEW HAVEN (Ct.) Nov. 30.—After binding and blindfolding the watchman, seven masked men early yesterday entered the store of A. N. Farnham, a market gardener of Westville, blew open the safe, secured \$200 in money and made their escape. Up to a late hour tonight, the police had not been able to get trace of the robbers.

Murderer Dies.
SEATTLE, Nov. 30.—James Brady, who murdered Mrs. Figue Shannon, the result of a lovers' quarrel three weeks ago, died in the county hospital last night. Brady had been in custody when he had killed his sweetheart and the wounds proved fatal.

Foul Play Is Feared.
SACRAMENTO, Nov. 30.—Sheriff Reese received word this morning that a young man named Garrett, whose home is in Sacramento and whom he had appointed keeper of some property near Jackson, which had been placed under attachment, had disappeared during the night. The fear is expressed that the young man is a victim of foul play and has been murdered.

Murderer Pays Penalty.
SALEM (Or.) Nov. 30.—Fred E. Sheppard was hanged at the penitentiary today for the murder of Benjamin F. Seal, a prominent citizen, September 24. On the scaffold Sheppard confessed the murder and said some one was guilty with him, but he did not give the name. September 24, in the early morning, Sheppard shot Benjamin F. Seal, his employer, at his ranch and then assisted his wife.

Girl to Be Tried.
THORNTON (R. I.) Nov. 30.—Ethel Smith, the 15-year-old girl who shot Elmer Briggs yesterday, after the latter was attempting to force an entrance into her family's home where Briggs' wife and child were staying, will be tried on a charge of manslaughter December 17.

Mrs. Linzelter Sentenced.
COSHOCOTON (O.) Nov. 30.—Mrs. Mary J. Linzelter, charged with wrecking the Newark Bank, was sentenced, today, to the penitentiary for three years for forgery.

Negro Kills His Wife.
PHOENIX (Ariz.) Nov. 30.—H. J. Cross, colored, this morning shot and killed his wife at the depot at Tucson, firing from behind a box car, following an attempt at reconciliation, for which he journeyed from Dallas, Tex. Their estrangement was due to alleged improper relations on her part with a Pullman porter.

MAIL CARRIER DISGUSTED.
Son of Christian Science Leader May Have to Pack Mail Bags Over Mountains.

(BY DIRECT WIRE TO THE TIMES.)
DEADWOOD (S. D.) Nov. 30.—[Exclusive Dispatch.] George Glover, the only son of Mrs. Mary Baker G. Eddy, head of the Christian Science church, may be compelled to carry the mail sacks over the mountain road from Deadwood to Ronbax, a distance of about twenty miles.

Glover is on the bond of Daniel L. Hartseff, under contract to make the delivery six times each week. The decrease of passengers and express business, because of the decline of mining camps along the route, has brought failure to Hartseff. The latter's experience has discouraged others from seeking the contract, and Glover, as bondsman, faces the task of carrying the mail himself. Hartseff still is struggling with the job but declares he will quit.

REFUSE TO RUN TRAINS.
TUCSON (Ariz.) Nov. 30.—The Sonora Railroad, which is the southern extension of the Southern Pacific system from Nogales, Ariz., to Guaymas, Sonora, is completely tied up as a result of the strike which has as its object the securing of the release of Jesse M. Ritts, now held in Hermosillo on a charge of manslaughter.

Ritts, an engineer of a passenger train which killed two Yaqui Indians walking on the track near Hermosillo, Saturday, was arrested and at his preliminary hearing Tuesday was held in default of \$5000 bail. By a preconcerted arrangement all trains on the road

POLITICIANS' BLOCK MAIL.

So Much "Literature" Dumped Into Postoffice That There's Delay.

Postmaster M. H. Flint yesterday made the following statement:

Notwithstanding the repeated warnings and notices from this office, the managers of the several political parties of this city mailed hundreds of thousands of pieces of political mail yesterday and today. Yesterday (Thanksgiving Day), being a legal holiday, carriers did not make full deliveries; hence, are unable to deliver the quantities of accumulated mail now on hand.

The situation has become critical by reason of the eleventh hour mailings of tremendous mass of political literature. Every available substitute carrier will endeavor to effect delivery prior to election day.

The situation now confronting the postoffice is that carriers will not be able to complete deliveries without assistance, and all mail will be more or less delayed for the next three or four days, but every available man connected with the postoffice will work overtime in order to expedite the delivery of the regular mail, and also the accumulated political literature.

EIGHT MORE CARRIERS.
First Assistant Postmaster General Hitchcock yesterday telegraphed Postmaster Flint authority to employ permanently eight additional letter carriers, beginning today.

were pulled into Hermosillo yesterday and abandoned by their crews, who refuse to move the trains until Ritts is released.

No trainmen can be induced to cross the line from Nogales, American Consul Brick Wood of Nogales and Vice Consul Hostetter of Hermosillo are working on the matter, and representations have been made to Washington, and to the City of Mexico.

H. J. Groce, a negro, shot and instantly killed a negro woman said to be his wife, at the Southern Pacific depot here this morning. When taken into custody, he claimed the woman had deserted him for a Pullman porter named Jenkins. The couple came from Dallas.

FLASHES FROM WIRES.
Thomas McCarthy, a clerk in a New Castle, Pa., hotel, and his brother, Michael McCarthy of Wampum, a suburb, have received word that an uncle, Timothy McCarthy, had died in Australia, leaving them the sole heirs to a fortune of \$1,000,000.

Fine which started at St. Catherine's Young Women's Institute, in New York, S. D., destroyed one of the halls and threatened to destroy the main building. One hundred pupils in the main building escaped. The financial loss will not exceed \$25,000.

A revised list of the casualties resulting at Dortmund, Germany, from an explosion on the night of November 23, of the Witten Robert factory, shows that thirty persons were killed, sixty-two severely injured and 180 were more or less seriously hurt.

Adm. Touchard's squadron sailed from Toulon, France for Tangier yesterday.

On the appeal of the Goldsmiths' Association, the court today refused to grant a writ of habeas corpus to the Goldsmiths' Association.

Stronger and stronger grows the sentiment that Lindley is the man for all friends of prosperity to consolidate upon. Harper is fading; he has not the ghost of a show. THOMAS HELD BY AL NEILL.

(BY THE ASSOCIATED PRESS.—P.M.)
SAN FRANCISCO, Nov. 30.—Joe Thomas, the welterweight champion, tonight failed in his undertaking to knock out Frank McConnell and Al Neill within ten rounds each.

McConnell went out on the first punch—a left hook to the jaw. In Neill, however, Thomas found a worthy antagonist. With the seventh round excepted, Neill's showing would have entitled him to a draw decision. In this round Neill was groggy, but by clever stalling and clinching prevented a knockout. In the other rounds Neill fought as well as Thomas. There were no knock-downs and neither man seemed distressed at the close.

ADMITTS HE LIED.
HERKIMER (N. Y.) Nov. 30.—The trial of Chester Gillette for the murder of his sweetheart, Grace Brown, practically came to a close today so far as the taking of evidence is concerned. The defense, while reserving the right to swear one witness tomorrow, rested this afternoon. The remainder of the afternoon was spent by the District Attorney in recalling several witnesses in rebuttal.

Gillette went through the ordeal of cross-examination without wavering in the slightest degree. His testimony as to the actual scene in Big Moose Lake. Apparently he had made up his mind to take his time in answering the District Attorney's questions. Gillette withstood a searching cross-examination at the hands of the District Attorney, establishing well.

When he finally stepped from the box he was as calm and untroubled as when he went on. He sat differently all through the court's proceedings. Gillette today swore that many of the things he said and wrote and which the prosecution took as the links in its chain of evidence were simply falsehoods connected for one reason or another and that many of the things he had done were merely acts of cowardice.

The wind blew a flag pole from the Girardelli Chocolate Factory at North Point and Larkin streets in the forenoon. The flag pole struck Joseph McGinn, fracturing his skull.

McGinn is a street contractor and was working in the street near the factory with a gang of laborers. All of them escaped when the heavy pole fell, except McGinn. His injuries are considered fatal.

Blowing almost with the velocity of a hurricane the winds brought down wall after wall throughout the ruined district. The crashes came unheralded.

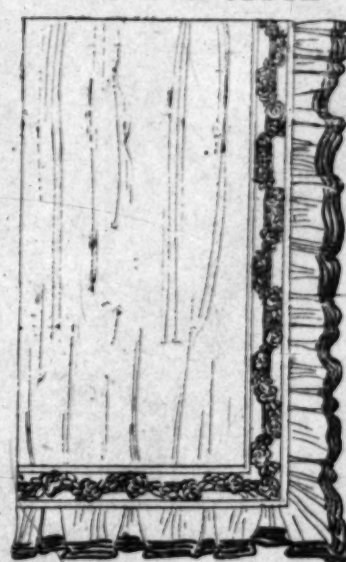

The high ruins of a building on Second street near Market toppled over with a roar and for minutes afterward lay a drifting cloud of dust masking the place where the walls had stood. The shell was 100 feet high and the material was of immense weight but fortunately no one was in the immediate neighborhood when the collapse occurred.

Another burned building on Leidesdorff street fell shortly afterward and the sudden detonation created momentary panic in the commercial section. Huge chunks that were the only remaining portion of high buildings were thrown over by the wind, as though they had been straw stuck in the earth. In many places scaffolding erected around new buildings was momentarily threatened and in some half-constructed edifices the laborers were laid off on account of the danger from the gale.

The bay was unusually rough and shipping along the sea wall suffered some damage by chafing and beating against the piers.

WILD CATTERS KNOCKED OUT.

New Chamber of Mines Well
Organized.

Constitution as Adopted Is
Good Guarantee.

Attempt to Insert Obnoxious
Clause Fails.

A well-attended meeting of wild cat miners' promoters, attended by a large number of the day's meeting to cross-cut the solicitation of the new Chamber of Mines by inculcating property and ore valuations in certificates reported by the chamber. Their drills assured on them, their powder was frozen by cold logic and the fuse splitting toward a charge that would unquestionably have blasted the organization to smithereens was pinched out in plain words, the wild catters were turned down hard.

By 2 o'clock the assembly hall of the Chamber of Commerce was packed with citizens interested in mining who came in response to a call for a general meeting to hear the report of the committee of sixteen on organization. Gen. John T. Matthews, chairman of the committee, called for order and the carefully prepared constitution and bylaws were presented, article by article. Each article in turn was accepted practically without change and the final adoption of them as a whole met with unanimous endorsement.

The meeting unanimously selected the committee of sixteen to serve as members of the board of directors of the new organization. The committee to select the other four members of the board. It was decided that the original address of Roling Knug outlying the objects and intentions of the proposed Chamber of Mines be spread upon the minutes and that he be known as the father of the organization. The entire meeting was vigorous and wound up with a unanimity of good feeling and enthusiasm which bodes an important future for the Chamber of Mines.

LEGITIMATE PURPOSES.
The constitution and bylaws as adopted do not allow the guaranteeing of anything beyond "title, location, management and development." It does not allow a valuation to be placed in the certificates or reports, of property, ore, stocks or any other matter of speculation. This high-minded regard for the integrity of the mining industry rests for its support from public opinion and for the integrity of its reports.

Efforts were made to place the burden of speculative guesses on the organization and a number of pro-prospectors present supported the view that the real instigators fell into the background of the meeting. The prospectors were of the opinion that unless reports of the chamber placed values on mining claims and prospects that they would have no opportunity to be benefited by registration with the bureau. The prospectors did not realize that they were banking for prospectors who hoped to find a means of raising wild cat stock through the guarantee of the organization.

"Your only hope of success is that you leave values out of the picture," W. C. Cary, "I speak from the experience of a mining bureau organized in Colorado, where I have been a mining man for twenty years. That bureau attempted to go into values of property and ore and was wrecked and disgraced by a gang of men who used it for getting rich quick."

LOOK TO LOS ANGELES.
Rol King received a telegram from "Al" B. Myers, known as the "stand-by" of Goldfield, which was pertinent to the meeting. It read as follows:

"SALT LAKE, Nov. 30.—Mining in Nevada is in its infancy. The rich mining region on earth is geographically tributary to Los Angeles. Organize the Los Angeles Mining Chamber. Make it a strong and progressive organization and turn the golden stream into its natural channel. Encourage legitimate mining and put mining stock and mining upon a business basis. Encourage the Los Angeles business men to reach out for the trade that belongs to them. First thing, insist upon thorough Pullman train service to the golden fields in order to facilitate travel and encourage trade. A short time later Ziegler picked the man up several blocks from the scene of the original capture."

Ziegler went to a room in the lodging-house on North Main street and found five men with a woman there. He picked out Walsh as a man who was wanted for room working on a large scale. With Walsh was another wanted man. "I want you two," said Ziegler to the pair, and then seeing another in the crowd whom he believed to be a thief, he added, "and you, too."

The detective marched his prisoners downstairs. Walsh and another were ahead of the officer and the last man picked out. At the door the pair in the lead ran in opposite directions. Ziegler released the man he believed to be a thief, and pursued Walsh from whose person he

had taken a big Colt's revolver. The man ran swiftly and danced his pursuer. Ziegler went south on Main street; then took an electric car north again. From the car he saw Walsh on the sidewalk and got him before the fugitive had time to realize the presence of his hunter.

Already Walsh had been identified by landlords of lured rooming-houses as a man acting suspiciously at the time of the thefts.

Darling Arrested on a Charge of Insulting Woman Whom He Speaks to on the Street.

J. F. Darling was caught in the act of insulting a woman by Detective Hosick and Ziegler yesterday. He will appear in police court today on a charge of disturbing the peace.

Darling was standing in the entrance of a building on South Main street. The detective was upstairs in this building looking for a man. With them from the Central Police Station had come a woman who was to aid in the search. The detective, Hosick, according to her statement Darling addressed her calling her "sweetheart," and made insulting remarks. A moment afterward the officers arrived.

At once the woman pointed out Darling and told what had happened. The officers took Darling into custody and started away from the place. He made some show of resisting arrest but at sight of a pair of handcuffs went down without a word. He is the offender in a number of similar cases which have been reported to the department.

GAS BECOMES CHEAPER.
Los Angeles Gas and Electric Company Will Reduce Price to Eighty Cents in a Month.

The Los Angeles Gas and Electric Company announced that on January 1 the price of gas will be reduced from 85 cents, the present price, to 80 a thousand.

The assistant secretary of the company, A. B. Day, said last night: "This is the thirteenth voluntary reduction this company has made in the past seventeen years. When we began business in 1889, we charged \$2.50 a thousand for gas, but made a reduction of 25 cents, almost immediately. Since then we have been steadily making the charge less."

"We aim to furnish gas at 75 cents and we shall certainly do this in the near future, perhaps in a year, or even sooner."

It may interest the people of Los Angeles to know that on January 1, they will be getting light at the same rate at which it furnished to the people of New York.

MAIL BOXES BROKEN.

Several mail boxes were found yesterday morning broken open. Their contents scattered about Los Angeles residents.

**INFLUX OF PEOPLE
TO GOLDEN STATE.**

(BY THE ASSOCIATED PRESS.—A.M.)
SAN FRANCISCO, Nov. 30.—C. F. Booth of the Union Pacific Railroad, who has just returned from the East, is authority for the statement that the influx of people to California this year is of unusually large proportions, and that much capital is seeking investment here.

"San Francisco is attracting more attention than any city in the United States, or for that matter, in the world," declared Booth. "I have had talks with the passenger traffic managers of the Chicago, Milwaukee and St. Paul; the Chicago and North Western and the Union Pacific, and they all told me of the heavy travel that was setting in for California."

"They told me that emigration to the Coast from the East was starting in earlier this year than in any previous year, and that in all their offices inquiry was directed to San Francisco. The persons making these inquiries were not poor people, looking for money, but wealthy people, who were thinking of investing in the city and were asking as to the best lines of business they should put money into."

H. Z. Osborne, Fred Hines, A. V. Gillmore, and others spoke along the same lines as Cary and the attempt to insert the opening wedge of greed was turned down.

**WINTER RATES
BEGIN TODAY.**
THREE LOCAL LINES AGREE ON EXCURSION PRICES.

First Year of Orange Grove Trips for Three Dollars, Tickets Good for Eight Days—Rival Roads Racing for the New Greenwater Mining District of Nevada.

Today the local winter excursion rates of the Santa Fe, Southern Pacific and Salt Lake roads go into effect. After considerable controversy the three roads have agreed on the following rates: To Riverside, Redlands and San Bernardino around the Kite and Inside Route, \$2 for the round trip, good for eight days; to the same points by Riverside or San Bernardino, round trip good for eight days, \$2.75.

This is the first year that the local lines have made the orange grove trips with a round-trip rate good for more than forty-eight hours. The refusal last year to extend the limit of these tickets raised so much opposition among the hotel-keepers and laundry men of Riverside, Redlands and San Bernardino that the passenger traffic departments were this year forced to hike commensurate the situation. They were confronted at the same time by a petition from some of the hotel men of Redlands for a thirty day limit to the cheap rate.

To this none of the roads would agree, desiring to compromise on ten days. It was then decided to Under the English system 10 days would annul 10-day rates already in existence, and eight days was made the limit in order to prevent an entire re-publication of the article, recently printed in conformity with the new rate law.

RIVALRY TOWARD GREENWATER.
Bitter rivalry is still waged between the Los Vegas and Tonopah and the Borax Smith roads. Although the Tonopah road beat the Smith construction gangs into the Bullfrog district by a good wide margin, the Borax King declares that he will beat the Clark line into the new Greenwater district.

Smith's construction gangs have reached a point some ninety miles from Ludlow, the junction point with the Santa Fe. At a point 100 miles from Ludlow, it is proposed to run a branch line ten miles or thereabouts by connecting

identical streets. It is believed the gang who did this was working toward bold and skilful robberies near Christmas time, with a crook masquerading as postman to do the work. The similarity to last winter's thefts leads to this opinion.

The seven broken boxes were at Jefferson and Figueroa streets, Jefferson and Grand avenue, Jefferson and Main streets, Twenty-ninth and Main streets, Twenty-ninth and Main streets, Twenty-third and Main streets, Twenty-third and Main streets.

About a year ago similar lock-smashing on mail boxes was recorded. In breaking up the gang postal officials learned that they had been taking impressions of the locks and keys to make them. With these in crook, uniformed as a mail carrier, was to go from box to box in the Christmas season, opening them and taking their contents to a room.

ALMOST THREE INCHES.
Average Precipitation for December, According to the Weather Bureau Records.

The local weather forecaster has compiled some interesting statistics for Los Angeles, covering a period of twenty-nine years, and applying only to the month of December.

The normal precipitation has been 2.75 inches, but during the warmest month, that of 1890, the average was 3.15 inches. The average during the coldest month, that of 1894, was 2.35 inches.

In the matter of precipitation, this report shows that the average for December was 2.55 inches. The greatest monthly precipitation, which was in 1889, was 3.58 inches. In 1901 there was no rain at all. On the other hand, there have been six days in December of each year when there was a rainfall of one inch. The greatest precipitation in twelve years of the month was in 1889, when 4.30 inches of rain fell.

In the matter of snowfall, the report is as brief as it is interesting. Not a single flake of snow is recorded as having fallen in twenty-nine years. The humidity has averaged 60 degrees, and the average number of clear days in December has been seventeen.

The native winds have been little more than breezes, except on one occasion, in 1887, when a heavy wind with a velocity of thirty-seven miles, was imported from an easterly direction.

PERSONAL.

Our method completely and permanently restores power after "nerve" ailment and "quick cure" specialists fail even to benefit.

Our scientific, systematic course of treatment for weak, nervous, broken down youths and men who have, through faulty diet and excess, unbalanced themselves for work and the enjoyment of life, is a system that has been tested many times over and proven entirely satisfactory. It is totally different from the many sickening pills and tablets which stimulate, stomach-ruling, inducing falling strength, and are harmful, though so effective as to remove them immediately. It is constitutional; therefore, by purifying the blood, strengthening the nervous system, nourishing the tissues, the patient becomes strong and healthy, with all signs of the trouble forever gone. POPE FINISHES HIS TOUR.
(BY THE ASSOCIATED PRESS.—A.M.)
NEW YORK, Nov. 30.—S. A. Pope, assistant general manager of the Great Western Railway of England, has just finished a three month tour of inspection in the United States and Canada in the interests of his company. He sails for England tomorrow on the liner Carolina. In an interview, Pope said:

"The principal object of my visit to America was to get the Atlantic steamships to land their mail at our new port on the coast of Pembroke. It is 250 miles from London, and the journey is made in four and a half hours. The Cunard line, with its new steamships, can no longer use Queens-land, the port of call for the mails. When I came out on the London, I waited there for four hours, and missed landing in New York on Friday night. I have been in America for three weeks, and I am very different to those in this country. In America, freight comes from passengers, and with us it is the reverse. The safety signals in America could be very much improved and the appalling number of accidents prevented. As regards carrying passengers, we are in a better position. With us, each person has a compartment and a bed. The roadbeds in the West, and so they are in Canada, are good, but they are bad in the East. Americans are a long-suffering people," Pope continued. "Since I have been here, ten persons have been killed in one wreck and fifty in another. I made a stir in the papers for one or two days, and then it seemed to be forgotten. Under the English system two trains are never allowed to be in the same section at the same time."

OLD DERRICK PULLED DOWN.

Unusually Skeletons of Lost Hopes Gone.

Old City Park Again Begins to Look Habitable.

Homes Will Now Replace the Pumping Plants.

For the first time in half a decade the sky line is clear of blackened oil derricks in the old City Park at Colton and Patton streets, where the first oil well drilled in this city was put down in 1892.

Yesterday the last derrick was pulled down and its colossal skeleton crashed, as would the gigantic skeleton of some millionaire's lost hope. Two things caused its fall: the rapid rise of residence property in this district and the ordinance passed recently by the City Council that the derricks must go by December 1, 1906.

They have gone. Only beautifully engraved oil stock is left as a souvenir. With the month of November the oil wells practically go out of existence in what was known as the second-street Park oil field, where oil was first discovered, and where the oil industry in Los Angeles began.

THE FIRST WELL.
There had been noticed in that locality for many years a peatlike substance called brine, which the residents in the neighborhood of the park were accustomed to use for fuel. In 1892 Messrs. Doherty and Connon, believing that the brine covered a deposit of oil, that the brine covered a deposit of oil, they sank another well near this park in the bottom of the shaft and were rewarded by a yield of seven barrels of oil daily. Later in the same year they sank another well near this park and with such success that the whole region, despite the opposition of property owners, was speedily given over to the oil business.

Opposition from the standpoint of esthetics gave way when it became known that the proceeds of well in the back yard would keep the cottage in its front supplied with necessities. The dismal screechings of derricks and tooting of pumping plants, many decorated better music than the songs of mocking birds, which they replaced, because there was, with the former, an accompaniment of lightning bolts. At the close of 1895 there were 300 wells grouped about the original at Patton and Colton streets.

INFLATED VALUES.
This era of easy living and rapid wealth getting, sometimes by means of inflated values in oil stocks, was short lived. Investigation of scientists showed that the oil had been deposited in a stratum of sand 100 feet, more or less, beneath the surface and of no great area or thickness. They estimated that the field contained not more than 2,500,000 barrels. Since the number of wells had increased so that in the year 1896 they yielded 72,000 barrels, it was evident that the end was near.

The flow from the wells steadily decreased and the screechings of derricks took on a sadder tone year by year, reminding many of better times, and some of good money that had been literally sunk to rise no more. Some sought to remedy the decreased flow of oil by new devices and improved machinery, but it was a case of trying to milk the cow after she had yielded up all she had.

Such a procedure must end in a protest from the cow, but the kick in this case came from the property owners, who made vigorous protest against having their property held up while experiments were made with a view to drawing oil from an empty reservoir, as fruitless as to attempt to quench the thirst by putting pressure on an empty bottle.

The City Council came to the aid of the property owners and formed an oil district, bounded by Borel, Temple, Lake Shore and Colton streets. An ordinance was passed requiring all wells to be pulled and derricks to be removed so that the district might be cleared of traces of the business by December 1, 1906. This action the Council has recently confirmed by refusing to allow cables in that district to be used across the streets.

FOR RESIDENCES.
The laws of nature and of trade, in this case, have operated more speedily than the ordinance of the City Council. The old City Park being needed for business and residence purposes, the wells there of necessity were abandoned. In other blocks the work was completed early in the year.

One by one the stately derricks bite the dust and the dripping tanks cease to send a sticky stream across the sidewalk. Children will soon romp and play over regions they now so carefully avoid. The very words sump-hole and derrick, pumping jack and butterfly, so frequently heard of late in that region, will be as a foreign dialect.

In the life of a city of today the living present crowd out all but itself. The past to its eager crowd enters, if at all, only as a memory. In few parts of the city is the march of improvement going on with such rapid pace as in the region where the first well in the city was sunk. The old Second-street Park is rapidly being transformed into a residence block and the proposed cutting through street, from First to Colton, is about to be graded, and Colton, from Toluca to Lake Shore and beyond.

OPEN UP DISTRICT.
Petitions are out for cement gutters, curbing and sidewalk on Court street, from Broadway to Edgewood road, and Metcalf street. Borel street, from First to Temple, is in process of grading, and Temple street in that locality and track litter. Such scenes are common enough in the new sections, but have seldom been equalled in an old part of the city.

Interest in that section just now for Court street. Proposed tunnel under it is in circulation and are being vigorously signed by the residents of the hill section, with objections offered against this.

HER LIFE IN DANGER.
Friends of Deputy Counselor Jack Adams and Mrs. Myrtle Adams will be shocked to learn that Mrs. Adams was yesterday taken to the California Hospital in a serious condition, and that her life is almost despaired of. Mrs. Adams, Herbert and Russell Adams will be done for her. When Mrs. Adams was removed from her home at No. 603 Miles street it was found that she was threatened with peritonitis. It is probable that an operation will be performed today in hopes of saving her life.

LANDSLIDE NOW TO
REPUBLICAN LEADER.

Splendid Gains All Over the City Re-
ported for the Popular Doctor.

Plurality for Lindley of Five or Six Thousand Claimed
at Republican Headquarters—The Democratic Wig-
wag Deserted, Harper's Campaign Fizzling Out and
Gates Workers Lying Down.

MORE clearly than ever it became evident yesterday that it is
only a question of the magnitude of Dr. Lindley's plurality.
His election is claimed by the Republican managers—not
by a narrow margin, but by a lead of such proportions as to show
plainly that he is the candidate of all the people and not of a clique
or a class. It is estimated at Republican headquarters that his plu-
rality will be 6000.

At the meeting of the Executive Committee of the Republican
City Central Committee yesterday afternoon reports were made
by canvassers who have covered nearly every precinct in the city.
These reports, as a whole, show Dr. Lindley far in the van. They
serve to clinch the strong conviction already held by the campaign
leaders that there is "nothing to it" now but Lindley.

Discounting the returns of the canvass and making liberal al-
lowance for possible losses that may be shown in some precincts
yet to be heard from, it was predicted by Dr. Lindley's managers
that he will have at least 6000 votes to spare when the votes are
counted Tuesday night.

CONSERVATIVE ESTIMATE.

There are some Republicans who say this figure is high in view
of the number of candidates in the field, but they are only 1000
above the estimate given out by Chairman McGarvin a week ago,
and since then there has been a tremendous addition to the strength
of Dr. Lindley. The last estimate, therefore, is considered con-
servative.

It was only necessary to make a round of the various political
headquarters yesterday to gather the trend of the sentiment.

Harper's wigwag on West Third street had the appearance of
an Eastern summer resort in the dead of winter. With the excep-
tion of a woman in the outer office who explained to every caller
that Chairman Edelman and Secretary Hanley were "out," and a
young man who answered telephone calls in the next room, the
place was deserted. An air of desolation pervaded the place. "It
seemed a pity to keep on paying the rent."

At Non-Partisan headquarters in the Douglas building, only
one or two of the campaigners were on duty. Their only callers
in the height of the afternoon were two negroes, one of whom ap-
peared later at the Republican camp.

LIVELY LINDLEYITES.

But at the Lindley rallying point in the Germain building the
activity was greater than at any previous time in the campaign.
Scores of precinct committeemen called to make their reports; chair-
men of the various committees were directing their forces, and ar-
rangements for getting out the vote were being perfected.

The telling feature of the canvass that has been made in the
city's many precincts is that Dr. Lindley is strong in every section.
There is no portion of the city in which he has not a flattering fol-
lowing. In some few precincts his strength is approached by one
candidate or another—Harper, Gates or Wilson—but his general
average is far above that of any of them.

It is quite different with his opponents. Gates, for instance,
shows up well in some precincts. There is a part of Highland Park,
in the First Ward, where he possibly leads, but such showings of
strength are rare. They are completely offset by other precincts
in which he is fourth man in the race.

It is the same with Harper and Wilson, although neither of
these seems to have developed any great following in any one sec-
tion, and there are parts of the city—notably in the Fourth and Fifth
wards—where there is little to indicate that they are even on the
ballot.

EVEN SHOWING THAT COUNTS.

It is this steady, even showing for Lindley in every quarter that
will elect him by a large plurality. It indicates the strong hold he
has on the hearts of all the people. There are no low spots to be
filled in by his surplus from other sections.

Gates may be high in Highland Park and in some parts of the
southwest, but he is so low in the Sixth, Seventh and Eighth wards
that when a general average is struck he is found to be far behind
Lindley.

Harper may be high in the Seventh or Eighth ward, but this
lead is so swallowed up in the deficiencies in the Third and Fourth
and other wards that his average is brought away down.

Dr. Lindley is strong in the First Ward, in the Second, in the
Third, in the Fourth, in the Fifth, in the Sixth, in the Seventh, in the
Eighth, and in the Ninth. There is no hop, skip and jump about his
following. You can put your finger on it, no matter on what part
of the city map you place your finger.

This steady volume of votes, like the smooth, quiet current of
a deep stream, is what warrants the claim that Lindley will be
elected.

"GOT LINDLEY TO BEAT."

The best proof that Lindley leads is furnished by his adver-
saries. They all recognize the fact that he has the only really solid
backing. They are all attacking him, by throwing mud, by casting
slurs upon his honorable name, by questioning his business ability
or by pretending that his motives are bad.

"Lindley is the man we've got to beat," say the Harper man-
agers, when they can be found.

"Lindley is the man we've got to beat," echo the Gates people,
belittling the claims of the Harp-rites that they are in the fight.

"Lindley is the man we've got to beat," re-echo the Wilson labor
following of Wilson, who deride the claims of all the other candi-
dates.

All of which goes to show how the opposition to the Republican
candidate is split up and to prove that a vote cast for either Harper
or Gates will be thrown away on a man who cannot possibly win.

Stronger and stronger
grows the sentiment that
Lindley is the man for all
friends of prosperity to con-
solidate upon. Harper is
fading; he has not the ghost
of a show. Gates is still wob-
bling and is losing ground
every day. The great, strong
Lindley tide is rising and
booming. Let us rally around
Lindley, the beloved doctor
the man of achievement,
the man who has done so much
for Los Angeles, the man we
can elect—let us rally around
him and defeat Wilson!

HUSBAND TRYING TO WIN BACK
WIFE ROUSES IRE.

MacCauley is a railroad man with
a woman lock. Some time ago, it
seems, his wife looked him out of their
happy home. Since then he has been
trying to win back her favor—espe-
cially does his trouble come over him
when he is in his cups.

The last time, the neighbors decided
they couldn't hear it any longer. He
woke them all up about midnight.
They heard him begging her to come
down and kiss him; he told her that
her house was "as dew and vapor in
the sun."

Mrs. MacCauley would not come
down; her rejected husband stood on
the front porch expostulating with her
at the top of his voice.

About 2 a.m. they got tired of Romeo
wooing his Juliet. They came out
half-dressed and the ardent wooer
was taken to jail.

From the story that was told in
court yesterday by some of the wit-
nesses, it appears that MacCauley
has been separated from his wife some
time. Hearing that she was about to
seek a divorce, he was driven to drink.
He went late in the evening and told
her, with great gravity, that this was
the "night of nights," and that he had
come to pay her a farewell call.

He got so ardent that she put him
out in the cold and the snow and sent
her children to rouse the neighbor-
hood.

He stood out on the front porch and
remonstrated.
"Do you love me, woman?" he
asked.
She said, soothingly, from the top
window, that she did.
"Do you think this is any way to
love me?"

He began threatening to break in
and kill the whole household and
burn down the house. Then she sent
another child out to hurry up the
neighborhood.

The neighbors appeared and stood
around him in circles, afraid to in-
terfere, until Oliver Heintz, Deputy
Sheriff, who claims to be a descendant
of the Melancholy Dane, arrived on
the scene and gently expostulated with
the wooer.

MacCauley tearfully tore off his
coat and offered to clean out the whole
crowd. Finally the police arrived and
took him to jail.

MacCauley is in court yesterday
listening with wonder and interest to
his strange doings of the night.
The case was not concluded.

LAST OF DUFFY'S FERRY

Service in Effect Since San Pedro Had
a Total Population of Fifteen to
End Tomorrow.

The passing of an "old landmark"
of San Pedro will take place tomorrow,
when Capt. Michael Duffy, one of the
first citizens of San Pedro, ceases to
operate the ferry which runs between
the harbor town and East San Pedro.
The new management of the ferry will
be the San Pedro Transportation Com-
pany.

For twenty-six years this ferry has
been operated by Capt. Duffy. The
reason for the change in management
is the successful underbidding of the
San Pedro Transportation Company
for the wharf privileges on either side
of the harbor.

When Capt. Duffy went to San Pe-
dro he established a ferry landing
resort at the place now known as East
San Pedro. The town of San Pedro
boasted at that time of the remark-
able foundation of fifteen persons, all
told. Wilmington was the shipping
center of Southern California.

The idea of a ferry was at first a
plan of Capt. Duffy to get the patron-
age to and from his resort. This point
proved an important gateway, how-
ever, and for nine years Duffy pulled
back and forth in a flat-bottom row-
boat.

When the Southern Pacific and the
Salt Lake—then the Terminal—entered
San Pedro the terminals for the ferry
were taken up and Duffy operated his
ferry under an agreement with the
railroads.

As gasoline launches came into use
the ferry business increased, but in all
the twenty-six years of Capt. Duffy's
service not one life was lost either di-
rectly or indirectly by the ferry peo-
ple. On the other hand, since 1880 the
employees of the ferry have been in-
strumental in saving thirty-seven
lives.

Capt. Duffy is 66 years of age and
looks 80. He has been in the boat
business all his life and is widely
known and well thought of by the cap-
tains who sail the Pacific Coast waters.
He has accumulated a comfortable
fortune.

ANOTHER HOTEL SOLD.

The Hotel Little, with a lot 60x125
feet, on the east side of Sixth street
between Fifth and Sixth, is reported
sold for \$125,000. The hotel is a three-
story frame building and pays a
rental of \$500 a month. The property
is conveyed by H. W. Bumiller and
March & Co. and Mince & Parsons
made the sale.

The Sanchez family of Spanish-American shoplifters, believed to be mem-
bers of a strange association of Mexican crooks. They stole \$1500 worth
of silks and furs a day in Los Angeles until police detectives arrested
them yesterday and recovered their loot, valued at \$9000.

Four Spanish-American shoplift-
ers were arrested yesterday by
police detectives and \$6000 worth
of silks, furs and clothing, loot from
local department stores, recovered.
Within two hours of the arrest nearly
one thousand dollars worth of this
plunder had been identified by owners.

Pedro Sanchez, his wife, Juanita, and
their two daughters, Merced and
Diana, compose the quartette. When
Detectives Tillamantes, Hatch and
Roberts, entered their room in the
Hoffman House on North Main street,
the dark-skinned crooks were on the
eve of leaving for the City of Mexico.
There, the police believe, they belong
to a strange association of maraud-
ing, light-fingered criminals who have
a "thieves' patter" all of their own,
a curious jargon of mixed Spanish and
French phrases, so twisted that no
honest man can understand it.

Mrs. Sanchez, say the police, did the
stealing; her two daughters "stalled"
for her, by amorous glances distract-
ing the attention of clerks while the
mother slipped costly fabrics and rich
furs beneath the folds of her volumi-
nous cape-cloak. Pedro Sanchez, hus-
band and father, directed operations.
The gang had been in the city just a
week when arrested. In that week
they had only four days of work. Their
operations therefore netted them per
day, \$1500 worth of goods.

SILKS AND SMILES.

Very naturally such wholesale loot-
ing brought remonstrances from vic-
tims. During the stay of the Sanchez
family a number of the city's largest
retail stores sent to the Central Police
Station one complaint after another.
As the direct result of these notifica-
tions, given with good descriptions of
the suspected parties, the three detec-
tives captured the thieves. They saw
them on Main street and followed
them to their room. There they found
them, with eight bolts of silk laid on
a bed, looking on their plunder and
smiling broadly. This complacency
vanished when they learned the iden-
tity of their visitors. Silkenness took
its place. At the Central Station all
four refused at first to talk; then led
swiftly, but with confusion of stories.
The following stories soon after the
arrest, through employees and man-
agers, identified goods to the value of
\$6000, opposite their names:
Hamburgers, \$450; Ville de Paris,
\$200; Blackstones, \$50; Silk House (on
Mercantile Place), \$10.

These identified goods were the
result of only casual work, made

while officers were sorting out the re-
covered property.

SUPPOSED SMUGGLERS.

The members of the crook family say
they came from San Juarez, Mex., via
El Paso, Tex. The officers know that
they were about to go back to the
City of Mexico. Evidence in the pos-
session of the department tends to
show that the thieves planned to
smuggle their goods across the border.
In this manner they would have
cleaned up several thousand dollars
from their brief California sojourn.
They were well supplied with funds
and all dressed expensively and neatly.
They are far from being "cholos."

Members of a strange association of
criminals, banded together in thieving
and smuggling operations, the Sanchez
family are regarded by the police as
probably the most dangerous shop-
lifters ever secured by local officers.
These Mexican thieves, according to
old criminal hunters, got their origin
in Spain. They are known as "viri-
skiffers" in the use of their fingers.
They ply in a solidly handkerchiefed
and pocket picking and shoplifting. Smug-
gling is practiced by men in leagues
with them. All dispose of their goods
through an underground system of
agents much akin to the "fences"
used by American and British crooks.
These agents are paid to work largely
through corruption of Mexican offi-
cials. They sell some of their plunder
right under the noses of the authori-
ties.

WORK IN FAMILIES.

A curious characteristic of these
thieves lies in the fact that they work
in families. With them it isn't a case
of one or two members of a household
being criminals to the horror of the
others. The entire family, in cases
from the father down to the dog,
works to get plunder from the honest
half of the community. Now are these
thieves so discriminating in what they
take as Anglo-Saxon crooks. Pickpock-
ets will appropriate anything from a
watch to a soldier's handkerchief; and
shoplifters walk away with every-
thing not fastened to the counters.
The different families protect one an-
other as best they can, and aid one an-
other in conducting operations.

WOMAN'S HUGE POCKETS.

The Sanchez family, according to the
police, came here because of approach-
ing holidays and consequent throngs of
shoppers. Their method of work was
briefly outlined. The mother had in
her flowing cloak huge pockets and
loops. Some of these were beneath the
body of the garment and some under
the folds of the voluminous cape. She

SATURDAY, DECEMBER 1, 1906.

MUSIC AND THE STAGE.

Mr. Kopta's chamber concert did not take place last night, being hindered by the illness of one of the players in the quartette.

It will be given at a later date, and probably a more auspicious one, as the quartette is well charged at the present moment, and but little interest is taken in many concert affairs that warrant much more kindly attention.

"The Road to Yesterday," in which Robert A. Dempster has a leading part, has proved one of the successes of the season in the East, and of the fall season in the West.

One of the recitals at present in planning by local artists is that to be given at Christ Church a week from Monday at 8 o'clock.

Mr. Kraus will be heard in a Viennese concerto and Beethoven's "Symphony No. 3."

Tomorrow evening at the Church of the Unity the choir will devote its music exclusively to Mendelssohn, and the selections will include "Lieder and songs" and organ numbers.

The soloists will be Mrs. Colby, Miss Joy, Mr. Zink and Mr. Bowen.

Mr. Colby will be at the organ.

The season of big offerings is drawing to a close. After "The Heir to the Throne," which comes next week, the rest of the year will be taken up, in order, by Robert Edison, Maxine Elliott and Olga Nethersole.

"Bravo, Antoinette!" This short, snappy play, which has been running since last night, is on Tuesday night, the finest actor in the company.

Evening at Antoinette could not sing a note—this is quite unthinkable, after all, and the play is of great interest.

So realistic was his acting, so subtle his interpretation of the character, that the dramatic power of the character eclipsed everything else in the play, even the brilliant singing of Antoinette.

Would that there were more Antoinettes in grand opera!

What They Have Done.

Women's clubs are tending more and more to give and altruistic work. A survey of the recent accomplishments of the clubs of the Los Angeles district, C.F.W.C., will make no mean showing at the meeting of the State Federation in February.

Besides literary and study features, here are a few things that clubs have done.

The Wednesday Afternoon Club of Alhambra has given a course of evening entertainments at the local high school, giving plants to the school and collecting money for beautifying the grounds.

A drinking fountain erected by this club has been placed in the grounds of the high school.

The Azusa Woman's Club is taking care of the trees that the members planted last Arbor Day.

The Carlsbad Woman's Club has had a room in the new Town Hall, and has thirty shares of stock in the building.

A sectional bookcase containing the volumes has been purchased, and the club has begun lending books to the public.

Each club member acts once a year as librarian, the room being open once a week.

The Covina Afternoon Club has had the survey law enforced. It has also made a donation of valuable books to the public library.

The Downey Saturday Afternoon Club gives every fourth Saturday to civic work. The members have determined to own a clubhouse in the near future.

They have a fund started, and are already in the process of building a suitable home.

The Women's Improvement Club of East Whittier has made a wonderful showing in the past few months. The club has incorporated and acquired a home of its own. This new clubhouse is a source of great pride, being a substantial brick building of artistic design and with every club convenience.

El Camino Real passes near the clubhouse and the members have secured four of the grandest plots to be set along the highway, beginning at the Placita home and extending to the Left Coast ranch, nearly to the Orange county line.

The women working with money is devoted to the preservation of the Placita home, which is within the corporate limits and owned by the city of Whittier.

The Monte Mountain View Shakespeare Club studies Shakespeare and holds social meetings periodically for the purpose of entertaining the husbands.

The Glendale Tuesday Afternoon Club has gained prestige among the business men by its civic work. Within the last year it has established a public library, furnished and opened hundreds of magazines housed on convenient shelves and reading tables.

The Long Beach Ebell Club's practical application of civics has resulted in the beautifying of grounds, removal of telegraph poles, placing window tributes in the Public Library, and contributing to the Juvenile Court fund.

The Boys' Heights Entry House Club's salary to the probation officer to the Boys' Home.

The Los Angeles Chapter of the Epoch and All Society has secured a bench during the vacation.

The California branch of the Cliff to set a bill passed through Congress and also the Cliff rule as a national reservation.

The Handicrafts Club of Los Angeles has taken to cross-country walks. Mrs. Laura Cason and other residents joined the National League of Women Painters, which exhibits of this sort, exhibits. The first exhibit of this sort, exhibits the league's study course of design for a year, will be held in Los Angeles during the holidays.

The Pomona Woman's Club was the second club to become a member of the Southern Society of the Archaeological Institute of America.

The Minerva Library Club of Santa Clara, formerly the Ladies' Literary Club, incorporated under the new name for the purpose of supporting the library, and eventually of building a home for the library and the club. This

Bought a Teddy bear yet for the youngsters? We advise you to select as soon as possible, for the demand's really enormous.

Hints From the Men's Furnishings Section.

The problem of what to give a man is frequently a puzzling one. Perhaps these suggestions may be of assistance: Hosiery, plain or fancy, from 25c to \$2 a pair; underwear, from 50c to \$4 a garment; lounging robes, from \$3.50 to \$12; suit cases or leather bags, \$5 and higher; suspenders in separate boxes, 25c and higher; reefers, hand embroidered, \$3.50 and higher; smoking jackets, \$5 to \$12—this is only a hint of what you may select from.

Stronger and stronger grows the sentiment that Lindley is the man for all friends of prosperity to consolidate upon. Harper is fading; he has not the glow of a show. Gates is still wobbling and is losing ground every day. The great, strong Lindley tide is rising and booming. Let us rally around Lindley, the beloved doctor, the man of achievement, the man who has done so much for Los Angeles, the man we can elect—let us rally around him and defeat Wilson!

catching the skin in the palm of your hand, and surreptitiously drop it into the pocket of your neighbor, telling him to hold up some San Francisco dancer.

It might be applicable. The Mayor of San Francisco was seen with a woman in a long dress. "What is he doing with her?" "He is dancing with her," said a woman. "What?" "He is dancing with her," said a woman. "What?" "He is dancing with her," said a woman.

SATURDAY IS CHILDREN'S DAY

Let Every Little Boy and Girl Come Here Saturday
Toyland and Doll-dom is Open—Santa Claus Will Be Here
 Between 8 and 12 O'clock Every Child Accompanied by Parents or Guardian Will Be Given a Souvenir

Our Toyland and Doll-dom will be the children's playground Saturday; all of you are interested in seeing the toys and dolls and are anxious to make selections of such things as you would like to have Santa Claus bring you for Christmas; get your mama and papa to come if you can. When you are down here look up Santa Claus and give him your Christmas want list. Every little boy and girl will be given a souvenir on Saturday morning without having to make any purchases; also every little girl who brings her doll or doll stockings free. Do not be bashful but just make this big store yours on Saturday and look around to your heart's content. There will be plenty of salespeople to wait on you. There are only twenty more shopping days before Christmas and as Santa Claus has so many little folks to look after you want to begin now to select Christmas presents.
